

9:00 - 18:00	Vladimir L. Pavlov (INTSPEI)	WORKSHOP: Early Bug Detection for Software Analysis and Design.	Quality Process / Management Architecture
--------------	------------------------------	---	--

23 October 2008 (Thursday)

<http://www.secr.ru>

	Room A	Room B	Room C
8:15	Registration and breakfast		
9:00	Opening ceremony		
9:40	Erich Gamma (IBM) How Eclipse changed my views on Software Development		
10:20	Victor Ivannikov (Institute for System Programming of RAS) System Programming. Current State and Trends Keynote Strategy	Nikolay Kurtov (Intel) Intel® Concurrent Collections for C++ - a model for parallel programming Technology	Dmitry Lobasev (Luxoft) Project Audits: Agile Teams Self-Assessment Quality Agile
11:00	Vladimir Pavlov (INTSPEI) Yesterday - File Managers. Today - Web Browsers. What will We Crown Tomorrow? Business Strategy Invited Talk	Alexandra Savelieva (HSE) Efficiency Evaluation of Cryptographic Protection of Information in Enterprise Applications Research SECURITY Technology	Sergey Zykov (TEKAMA) iCarnegie curricula remote delivery in Russia: the first results HR/Education
11:40	Wei Li (Intel) Parallel Programming 2.0 Technology Keynote Research Strategy	Yelena Belyayeva (Motorola) Internal Training Program for SQA, is it Worth for Money? Quality HR/Education	ROUND TABLE Social Media for Businesses: Aligning Business Objectives with Online Solution Engineering Moderators: Ilya Antipov (RUSSEE Consulting), Nikolay Mitushin (ABRT Fund) Business
12:20	Alexander Kondakov (Inspirex Consulting) CMMI for Acquisition: a new model - for whom and why? CMM Invited Talk	Ilya Cherny (Intel) Maximizing Intel® Compiler Performance Using Iterative Feedback Directed Optimization Technology	
13:00	Lunch		
14:00	WORKSHOP Erich Gamma (IBM)	Artyom Vorobjov (Exigen Services) Development of AJAX applications using J2EE platform with using Agile methodologies: Comprehensive analysis of Google Web Toolkit and JBoss RichFaces frameworks Agile Technology	Fedor Krasnov (AKADO) Function or service? (The internal market for services in the organization) Business
14:40	Scaling-up Agility to Globally Distributed Teams – The Eclipse Way	Dmitry Ryzhov (SWD Software) The process of developing hardware and software systems based on visual modeling using SysML/UML Technology	Stanislav Kalkanov (Luxoft) CMMI Appraisal – Cost Control and Extra Business Benefit CMM
15:20	Process / Management Agile	Elena Pavlova (MEPhI), Alexander Gavrilov (Microsoft) Software engineering methods in computer games industry Research	Vladimir Kovalevskiy (WMJ.RU) The architecture of high-performance web-applications Architecture
16:00	Artem Babamuratov (Luxoft) Software Estimation Tools Investigation Process / Management	Sergey Zykov (TEKAMA) The Integrated Enterprise Data Warehouse Engineering Technology	Gaidar Magdanurov (Microsoft) Pitfalls in C# Technology
16:40	Enrique Duvos (Adobe) Adobe RIA Platform: See the Future Technology Strategy Keynote	Vadim Savkin (CQG) Automated software development process audit Process / Management	Denis Miller (Agile Consulting) Evolutionary design Architecture Agile
17:20	Ivan Medvedev (Microsoft) Microsoft Security Development Lifecycle (SDL): What, Why and How SECURITY Invited Talk	Artyom Astafurov (DataArt), Kirill Timofeev (DataArt), Anatoly Shalyto (SPbSUITMO) Automata Classes Inheritance in Dynamic Language Ruby Technology Research	Andrey Satarin (Customized InformSystems Ltd.) Introduction to Continuous Integration or Stone Soup Process / Management Agile
18:00	Frank van den Beuken (Programming Research) Correlation between coding standards compliance and software quality Quality Research	Andrew Mayorov (BYTE-force) Improved role-based access control model SECURITY	Konstantin Zhereb, INTSPEI Using Reverse Semantic Traceability for Quality Control in Agile MSF-based Projects Process / Management Architecture Agile

24 October 2008 (Friday)

Software Engineering Conference (Russia) 2008

	Room A	Room B	Room C
8:15	Registration and breakfast		
9:00	Andrey Bibichev (Customized InformSystems Ltd.) Analyst in Agile – archaism or need? Process / Management Agile Invited Talk	Serge Preis (Intel) Software Transactional Memory system for C++ Technology	Anton Grachev (Luxoft), Evgeny Gavrillov (Luxoft) Experience in creation and implementation of integrated software development process automation system CMM
9:40	Jim Held (Intel) The Future of Multi-core: Intel's Tera-Scale Computing Research Research Strategy Technology Keynote	Nikolay Tkachuk (NTU KhPI), Sergey Polkovnikov (NTU KhPI), Michail Godlevsky (NTU KhPI) Adaptive Control of Component Software Complexes at the Case-Based Reasoning Approach Research	Svetlana Saveljeva (AT-Software) Task as Motivation Process / Management HR/Education
10:20	Askhat Urazbaev (ScrumTrek) Agile Requirements Management Process / Management Agile Invited Talk	Stanislav Kalkanov (Luxoft) Practical experience of quantitative project management practice development and usage to meet CMMI v1.2 high maturity requirements and organizational business objectives CMM Process / Management	ROUND TABLE Russian SDLC-s: How Leading Russian Software Companies Organize Their Product Lifecycles Moderator: Alexey Odinokov
11:00	WORKSHOP Ivan Medvedev (Microsoft) Threat Modeling SECURITY	Ruslan Shevchenko (GradSoft Ltd) Application of Rewriting Term System for Source Code Analysis Research Technology	Moderator: Alexey Odinokov Process / Management Business
11:40		Alexei Barantsev (Institute for System Programming of RAS) Web-application testability evaluation Quality	ROUND TABLE Process / Management
12:20	Bogomil Balkansky (VMWare) VMware Infrastructure – the New Distributed Operating System for the Datacenter Technology Keynote	Larisa Melikhova, Dmitry Vavilov (Motorola) System Engineering: from marketing requirements to product specifications Process / Management	The Business Case for Agile Software Development Moderators: Askhat Urazbaev (ScrumTrek), Nikolai Puntikov (Exigen Services) Business Agile
13:00	Lunch		
14:00	Andrey N. Terekhov (AT Software, SPbSU), Karina Terekhova (NOKIA) The economics of the staff training at the enterprise Invited Talk Business HR/Education	Ivan Gumenyuk (EMC) Convergence of CMM/CMMI and Agile software development processes Process / Management CMM Agile	Vladimir Rubanov (Institute for System Programming of RAS) Automated Analysis of Cross-Distribution Compatibility of Linux Applications Quality Technology
14:40	Alexander Lozhechkin (Microsoft) Technical evangelism and its place in software development process Process / Management Invited Talk	Boris Sabanin (Intel) Intel(R) Integrated Performance Primitives 2008 Technology	Alexander Babich (Knowledge Center Incom Company) All in one: you can do more. We'll teach you how... HR/Education
15:20	Igor Agamirzian (EMC) Globalization of software development in matrix management environment Process / Management Invited Talk	Dmitry Soshnikov (Microsoft) F#: Multiparadigm Programming at Industrial Scale Research Technology	Alexey Khoroshilov (Institute for System Programming of RAS) Software Portability: Forty Years Later Quality
16:00	Stas Fomin (Customized InformSystems Ltd.) Mediawiki: Silver bullet or Swiss knife? Process / Management Invited Talk	Yasna Milkova (Luxoft), Anatoly Galay (Luxoft), Alexandr Alexandrov (Luxoft) Statistical management in testing Process / Management Quality CMM	Alexander Pastyak (Siemens) Performance Prediction of Client-Server Systems by high-level Abstraction Models Technology
16:40	Andreas Golze (HP) Reduce Project risk through early defect detection Process / Management Quality Keynote	Andrey Krasnyaschikh (Exigen Services) Generation Copy-Paste HR/Education	Sergey Arkhipenkov (TEKAMA) Win March. Adaptive Project Management: Principles and Examples Process / Management Agile
17:20	Steve Mellor, Agile MDA Architecture Agile Keynote		
18:00	Conference Closing Ceremony		

25 October 2008 (Saturday)

<http://www.secr.ru>

9:00 - 18:00	Steve Mellor WORKSHOP: System-wide software architecture Architecture Agile
